

Develop Escher Eyes

By Terry Kawas

<http://www.mathwire.com>

Step 1:

Develop a New Perspective

You must begin to look at shapes in a new way. Look for the possibilities within shapes.

Slide, flip and turn shapes to view all possibilities.

Step 1:

Develop a New Perspective

Remember looking up at clouds and pointing out that some clouds looked like rabbits or dogs or...???

That's the Escher-eye at work!
