

Name: _____ Date: _____

Fishing

Tony went fishing each day with his uncle. He caught 2 fish on the first day. He caught 1 fish on the first day. He caught 5 fish on the second day. He caught 9 fish on the third day.

- Fill in the table to show how many fish Tony caught on the first, second, and third days.

Day	1st	2nd	3rd	4th	5th	6th	7th
Number of fish							

- Look for a pattern. Write a rule for this table.

Rule

- If the pattern continues, how many fish will Sammy catch on the 7th day?
 - Use your rule to fill in the table for the 4th, 5th, 6th and 7th days.
 - Explain how you know your answer is correct.
