

Name: _____

Date: _____

Robot Man

Juan is buying foam shapes at the store to make his robot man.
The store charges different prices for different shapes.

shape	price
triangle	2 ¢
trapezoid	10 ¢
rhombus	5 ¢
hexagon	20 ¢

- How many of each shape does Juan have to buy to make his robot man?
- How much will Robot Man cost in all?
- Draw one set of coins that Juan can use to pay the exact price.

shape	Number needed	Cost for this shape
triangle		
trapezoid		
rhombus		
hexagon		

Robot Man will cost _____
