Date: _____

Totem Pole

Kate is buying foam shapes at the store to make her totem pole. The store charges different prices for different shapes.

shape	price
triangle	2 ¢
trapezoid	10 ¢
rhombus	5 ¢
hexagon	20 ¢

- How many of each shape does Kate have to buy to make her totem pole?
- How much will her totem pole cost in all?
- Draw one set of coins that Kate can use to pay the exact price.

shape	Number needed	Cost for this shape
triangle		
trapezoid		
rhombus		
hexagon		

The totem pole will cost _____
