

Name: _____ Date: _____

Best Deal

Marco is buying soda for the family picnic. He needs to buy 72 cans of soda in all. He finds the following prices in the Sunday ads:

| |
|------------------|
| Shop-Rite |
| 12-packs of soda |
| 3 for \$7.00 |

| |
|------------------|
| Target |
| 12-packs of soda |
| 2 for \$5.00 |

| |
|-----------------------------------|
| Costco |
| Case of soda (24 cans in case) |
| \$3.49 |

- How much would Marco pay at each store for his 72 cans of soda?
- Where should Marco buy the 72 cans of soda to get the best deal or lowest price so that he has extra money for desserts? Explain.
