## Penguin Fishing

Penny Penguin goes fishing. She catches 3 fish the first day. She catches 8 fish on the second day. The third day, she catches 13 fish.

- Complete the table for Penny's fishing.

Day	No. of fish
1	
2	
3	

- What pattern do you see in the data?

- If Penny keeps catching fish according to this pattern, how many fish will she catch on the 7th day? Explain how you know your answer is correct.
